chuukese language translation to english: Forgotten Bodies Sarah A. Smith, 2023-11-10 Women from Chuuk, Federated States of Micronesia, who migrate to Guam, a U.S. territory, suffer disproportionately poor reproductive health outcomes. Though their access to the United States is unusually easy, through a unique migration agreement, it keeps them in a perpetual liminal state as nonimmigrants, who never fully belong as part of the United States Chuukese women move to Guam, sometimes with their families but sometimes alone, in search of a better life: for jobs, for the education system, or to access safe health care. Yet, the imperial system they encounter creates underlying conditions that greatly and disproportionately impact their ability to succeed and thrive, negatively impacting their reproductive health. Through clinical and community ethnography, Sarah A. Smith illuminates the way this system stratifies women's reproduction at structural, social, and individual levels. Readers can visualize how U.S. imperialist policies of benign neglect control the body politic, change the social body, and render individual bodies vulnerable in the twenty-first century but also how people resist.

chuukese language translation to english: Multilingual Learners and Academic Literacies Daniella Molle, Edynn Sato, Timothy Boals, Carol A. Hedgspeth, 2015-03-05 Shifting the discourse from a focus on academic language to the more dynamic but less researched construct of academic literacies, this volume addresses three key questions: • What constitutes academic literacy? • What does academic literacy development in adolescent multilingual students look like and how can this development be assessed? • What classroom contexts foster the development of academic literacies in multilingual adolescents? The contributing authors provide divergent definitions of academic literacies and use dissimilar theoretical and methodological approaches to study literacy development. Nevertheless, all chapters reflect a shared conceptual framework for examining academic literacies as situated, overlapping, meaning-making practices. This framework foregrounds students' participation in valued disciplinary literacy practices. Emphasized in the new college and career readiness standards, the notion of disciplinary practices allows the contributing authors to bridge the language/content dichotomy, and take a more holistic as well as nuanced view

of the demands that multilingual students face in general education classrooms. The volume also explores the implications of the emphasis on academic literacy practices for classroom instruction, research, and policy.

chuukese language translation to english: Under Heaven's Brow Ward Hunt Goodenough, 2002 For the people of Chuuk and for students of religion and Micronesian culture, this book pulls together and makes available in English the somewhat scattered published accounts (largely in German), along with Goodenough's own (as yet unpublished) information about religious beliefs and ritual practices in pre-Christian Chuuk. The materials are presented in a way that seeks to document and illustrate a particular approach, a functional one, to understanding the kinds of human concerns that give rise to religious behavior. Simply to describe traditional beliefs and rituals without the relevant social background information leaves the reader without any feeling for what were the emotional concerns, engendered by life in Chuukese society, that ritual practices helped people address. Ward Goodenough offers a theoretical introduction, the necessary background information about Chuuk and the ways in which members of Chuukese society experienced themselves and their fellows, the world view and overall set of beliefs providing the intellectual framework within which ritual practices were formulated and understood, and the various bodies of ritual practices. He concludes the book with a summary that pulls together how the rituals described appear to related to the emotional concerns that growing up and living in Chuuk tended to create.

chuukese language translation to english: The Japanese Language in the Pacific Region Daniel Long, Keisuke Imamura, 2024-08-16 Long and Imamura examine language contact phenomena in the Asia Pacific region in the context of early 20th-century colonial history, focusing on the effects the Japanese language continues to have over island societies in the Pacific. Beginning in the early 20th century when these islands were taken over by the Japanese Empire and continuing into the 21st century, the book examines 5,150 Japanese-origin loanwords used in 14 different languages. It delves into semantic, phonological, and grammatical changes in these loanwords that form a fundamental part of the lexicons of the Pacific Island languages, even now in the 21st century. The authors examine the usage of Japanese kana for writing some of the local languages and the pidginoid phenomena of Angaur Island. Readers will gain a unique understanding of the Japanese language's usage in the region from colonial times through the post-war period and well into the current century. Researchers, students, and practitioners in the fields of sociolinguistics, language policy, and Japanese studies will find this book particularly useful for the empirical evidence it provides regarding language contact situations and the various Japanese language

influences in the Asia Pacific region. The authors also offer accompanying e-resources that help to further illustrate the examples found in the book.

chuukese language translation to english: *Language and Social Justice in Context* Scott Saft, 2022-02-08 This book builds on recent research exploring the intersection between language and social justice, using the multilingual context of Hawai'i as a case study. The author offers a discourse-centered approach, providing analyses of actual instances of language use, and argues that the wide range of languages in Hawai'i - Hawaiian, Pidgin, Japanese, Chinese, Tagalog, Ilocano, Marshallese, and Chuukese, as well as the phenomenon of language mixing - all have a significant contribution to make to society. The book also draws on language acquisition research demonstrating positive long-term effects of exposure to multiple languages, and makes the case for educational approaches that foster multilingual abilities among the young members of society. This book will be relevant for academics interested in the intersection of language and social justice and languages in Hawai'i, but it should also be of interest to undergraduate and especially graduate students in sociolinguistics, language revitalization and language documentation, discourse analysis, applied linguistics, and pragmatics.

chuukese language translation to english: *Marshallese-English Dictionary* Takaji Abo, Byron W. Bender, Alfred Capelle, Tony DeBrum, 1977-05-01 The Marshallese-English Dictionary contains almost 12,000 entries giving information on an estimated 30,000 Marshallese words. Built upon the information collected in earlier dictionaries, its entries are enriched with grammatical information and illustrative sentences. Many words not previously recorded have been added, both older words dealing with the lore of the islands and newer words that reflect the changing circumstances of life today. Following the recommendations made by a committee of Marshallese leaders in 1971, the words in this dictionary are spelled along traditional lines, but spellings have been regularized phonetically by computer. An English Finder List is provided to enable the user to easily locate terms for navigation, currents, weather, food preparation, games, and other important aspects of Marshallese culture. A special section lists more than 4,000 place names in the Marshall Islands. Scientific identifications are given for the names of plants, marine life, animals, and stars and constellations. Created to fill the need for a comprehensive dictionary in programs of bilingual education in the schools of the Marshall Islands, this work will also be of use to anthropologists and linguists specialising in the Pacific.

chuukese language translation to english: Digesting the Public Sphere Sarah Marusek, 2018-12-07 In the routine spectrum of our lives, we inhabit the public sphere. Whether in the street, the shopping center, or on the bus, we engage with the empowered, the disempowered, the omitted, and the powerful. Within the public sphere, the notion of public involves a complexity of approaches to aspects of everyday practices of power, performance, and place. Through these approaches, that which is public can be visualized, experienced, and contested in the construction, ceremony, and design of buildings, institutions, and daily activities. In a variety of ways, the conceptualization and contextualization of the public contributes to identity formations, narratives of community, and manifestations of the political that materially and discursively transpire within the public sphere in the perceptions of inequality, metaphors for knowledge, and critiques of consciousness. For this volume focused on interpretive methods and methodologies that address the concept of public, we present a lively engagement with methodological insight into the political digestion of the public sphere. We delve into models of and approaches to conducting research, the analysis of findings, and the reaffirmation of enhanced techniques of related inquiry in public spaces. We seek to explore the following questions: What is the public? How do we visualize/understand/experience the public? What are the ways in which these insights connect to articulations of citizenship and democracy? How is the public implicated in the political? The chapters originally published as a special issue in *Space and Polity*.

chuukese language translation to english: A Model for Translation Quality Assessment Juliane House, 1977

chuukese language translation to english: Culture, Body, and Language Farzad Sharifian, René Dirven, Ning Yu, Susanne Niemeier, 2008-11-03 One of the central themes in cognitive linguistics is the uniquely human development of some higher potential called the mind and, more particularly, the intertwining of body and mind, which has come to be known as embodiment. Several books and volumes have explored this theme in length. However, the interaction between culture, body and language has not received the due attention that it deserves. Naturally, any serious exploration of the interface between body, language and culture would require an analytical tool that would capture the ways in which different cultural groups conceptualize their feelings, thinking, and other experiences in relation to body and language. A well-established notion that appears to be promising in this direction is that of cultural models, constituting the building blocks of a group's cultural cognition. The volume results from an attempt to bring together a group of scholars from various language backgrounds to make a collective attempt to explore the relationship between body, language and culture by focusing on conceptualizations of the heart and other internal body organs across a number of languages. The general aim of this venture is to explore (a) the ways in which internal body organs have been employed in different languages to conceptualize human experiences such as emotions and/or workings of the mind, and (b) the cultural models that appear to account for the observed similarities as well as differences of the various conceptualizations of internal body organs. The volume as a whole engages not only with linguistic analyses of terms that refer to internal body organs across different languages but also with the origin of the cultural models that are associated with internal body organs in different cultural systems, such as ethnomedical and religious traditions. Some contributions also discuss their findings in relations to some philosophical doctrines that have addressed the relationship between mind, body, and language, such as that of Descartes.

chuukese language translation to english: Translating Women Luise von Flotow, Farzaneh Farahzad, 2016-10-04 This book focuses on women and translation in cultures 'across other horizons' well beyond the European or Anglo-American centres. Drawing on transnational feminist

connections, its editors have assembled work from four continents and included articles from Morocco, Mexico, Sri Lanka, Turkey, China, Saudi Arabia, Columbia and beyond. Thirteen different chapters explore questions around women's roles in translation: as authors, or translators, or theoreticians. In doing so, they open new territories for studies in the area of 'gender and translation' and stimulate academic work on questions in this field around the world. The articles examine the impact of 'Western' feminism when translated to other cultures; they describe translation projects devised to import and make meaningful feminist texts from other places; they engage with the politics of publishing translations by women authors in other cultures, and the role of women translators play in developing new ideas. The diverse approaches to questions around women and translation developed in this collection speak to the volume of unexplored material that has yet to be addressed in this field.

chuukese language translation to english: First Fieldwork Laura Zimmer-Tamakoshi, 2018-08-31 First Fieldwork: Pacific Anthropology, 1960–1985 explores what a generation of anthropologists experienced during their first visits to the field at a time of momentous political changes in Pacific island countries and societies and in anthropology itself. Answering some of the same how and why questions found in Terence E. Hays' Ethnographic Presents: Pioneering Anthropologists in the Papua New Guinea Highlands (1993), First Fieldwork begins where that collection left off in the 1950s and covers a broader selection of Pacific Islands societies and topics. Chapters range from candid reflections on working with little-known peoples to reflexive analyses of adapting research projects and field sites, in order to better fit local politics and concerns. Included in these accounts are the often harsh emotional and logistical demands placed on fieldworkers and interlocutors as they attempt the work of connecting and achieving mutual understandings. Evident throughout is the conviction that fieldwork and what we learn from and write about it are necessary to a robust anthropology. By demystifying a phase begun in the mid-1980s when critics considered attempts to describe fieldwork and its relation to ethnography as inevitably biased representations of the unknowable truth, First Fieldwork contributes to a renewed interest in experiential and theoretical nuances of fieldwork. Looking back on the richest of fieldwork experiences, the contributors uncover essential structures and challenges of fieldwork: connection, context, and change. What they find is that building relationships and having others include you in their lives (once referred to as "achieving rapport") is determined as much by our subjects as by ourselves. As they examine connections made or attempted during first fieldwork and bring to bear subsequent understandings and questions—new contexts from which to view and think—about their experiences, the contributors provide readers with multidimensional perspectives on fieldwork and how it continues to inspire anthropological interpretations and commitment. A crucial dimension is change. Each chapter is richly detailed in history: theirs/ours; colonial/postcolonial; and the then and now of theory and practice. While change is ever present, specifics are not. Reflecting back, the authors demonstrate how that specificity defined their experiences and ultimately their ethnographic re/productions.

chuukese language translation to english: The Palgrave Handbook of Global

Mormonism R. Gordon Shepherd, A. Gary Shepherd, Ryan T. Cragun, 2020-11-12 This handbook explores contemporary Mormonism within a global context. The authors provide a nuanced picture of a historically American religion in the throes of the same kinds of global change that virtually every conservative faith tradition faces today. They explain where and how the Church of Jesus Christ of Latter-day Saints has penetrated national and cultural boundaries in Latin America, Oceania, Europe, Asia, and Africa, as well as in North America beyond the borders of Mormon Utah. They also address numerous concerns within a multinational, multicultural church: What does it mean to be a Latter-day Saint in different world regions? What is the faith's appeal to converts in these places? What are the peculiar problems for members who must manage Mormon identities in conjunction with their different national, cultural, and ethnic identities? How are leaders dealing with such issues as the status of women in a patriarchal church, the treatment of LGBTQ members, increasing disaffiliation of young people, and decreasing growth rates in North and Latin America while sustaining increasing growth in parts of Asia and Africa?

chuukese language translation to english: German Diasporic Experiences Sebastian

Siebel-Achenbach, 2008-10-02 Co-published with the Waterloo Centre for German Studies For centuries, large numbers of German-speaking people have emigrated from settlements in Europe to other countries and continents. In *German Diasporic Experiences: Identity, Migration, and Loss*, more than forty international contributors describe and discuss aspects of the history, language, and culture of these migrant groups, individuals, and their descendants. Part I focuses on identity, with essays exploring the connections among language, politics, and the construction of histories—national, familial, and personal—in German-speaking diasporic communities around the world. Part II deals with migration, examining such issues as German migrants in postwar Britain, German refugees and forced migration, and the immigrant as a fictional character, among others. Part III examines the idea of loss in diasporic experience with essays on nationalization, language change or loss, and the reshaping of cultural identity. Essays are revised versions of papers presented at an international conference held at the University of Waterloo in August 2006, organized by the Waterloo Centre for German Studies, and reflect the multidisciplinary and the global perspective of this field of study.

chuukese language translation to english: The Typhoon of War Lin Poyer, Suzanne

Falgout, Laurence Marshall Carucci, 2000-11-01 World War II was a watershed event for the people of the former Japanese colonies of Micronesia. The Japanese military build-up, the conflict itself, and the American occupation and control of the conquered islands brought rapid and dramatic changes to Micronesian life. Whether they spent the war in caves and bomb shelters, in sweet potato fields under armed Japanese guard, or in their own homes, Micronesians who survived those years recognize that their peoples underwent a major historical transformation. Like a typhoon, the war swept away a former life. *The Typhoon of War* combines archival research and oral history culled from more than three hundred Micronesian survivors to offer a comparative history of the war in Micronesia. It is the first book to develop Islander perspectives on a topic still dominated by military histories that all but ignore the effects of wartime operations on indigenous populations. The authors explore the significant cultural meanings of the war for Island peoples, for the events of the war are the foundation on which Micronesians have constructed their modern view of themselves, their societies, and the wider world. Their recollections of those tumultuous years contain a wealth of detail about wartime activities, local conditions, and social change, making this an invaluable reference for anyone interested in twentieth-century Micronesia. Photographs, maps, and a detailed chronology will help readers situate Micronesian experiences within the broader context of the Pacific War.
