**islamic history of spain:** *Islamic Spain* L.P. Harvey, 2014-05-19 This account of Muslim life in late medieval Spain is “a beautifully written account of an enthralling subject” (The Observer). From an acclaimed scholar in the field, this is a richly detailed account of Muslim life throughout the kingdoms of Spain from the fall of Seville, which signaled the beginning of the retreat of Islam, to the Christian reconquest. Together with L.P. Harvey’s following volume, *Muslims in Spain 1500–1614*, it provides an in-depth look at the experiences of this population from the late medieval to the early modern period. “Harvey not only examines the politics of the Nasrids, but also the Islamic communities in the Christian kingdoms of the peninsula. This innovative approach breaks new ground, enables the reader to appreciate the situation of all Spanish Muslims. . . . An absorbing and thoroughly informed narrative.” —Times Higher Education Supplement “[A] clearly written, comprehensive, and illuminating study detailing the final three centuries of the Islamic presence in the Iberian Peninsula.” —Library Journal “Masterly narrative history . . . an outstanding work.” —Muslim World Book Review “Few historians in the English-speaking world could give a coherent account of the political history of Muslim Granada. Harvey does this skillfully.” —History Today

**islamic history of spain: Kingdoms of Faith** Brian A. Catlos, 2018-05-01 A magisterial, myth-dispelling history of Islamic Spain spanning the millennium between the founding of Islam in the seventh century and the final expulsion of Spain's Muslims in the seventeenth In *Kingdoms of Faith*, award-winning historian Brian A. Catlos rewrites the history of Islamic Spain from the ground up, evoking the cultural splendor of al-Andalus, while offering an authoritative new interpretation of the forces that shaped it. Prior accounts have portrayed Islamic Spain as a paradise of enlightened tolerance or the site where civilizations clashed. Catlos taps a wide array of primary sources to paint a more complex portrait, showing how Muslims, Christians, and Jews together built a sophisticated civilization that transformed the Western world, even as they waged relentless war against each other and their coreligionists. Religion was often the language of conflict, but seldom its cause -- a lesson we would do well to learn in our own time.

**islamic history of spain:** *Early Islamic Spain* David James, 2009-02-25 Including maps, an extensive introduction and notes and commentary by the translator, *Early Islamic Spain* is the first English language translation of the important history of Islamic Spain by Ibn al-Qutiyyah, one of the earliest and significant histories of Muslim Spain and an important source for scholars.

**islamic history of spain: The Myth of the Andalusian Paradise** Dario Fernandez-Morera, 2023-07-11 A finalist for World Magazine's Book of the Year! Scholars, journalists, and even politicians uphold Muslim-ruled medieval Spain—al-Andalus—as a multicultural paradise, a place where Muslims, Christians, and Jews lived in harmony. There is only one problem with this widely accepted account: it is a myth. In this groundbreaking book, Northwestern University scholar Darío Fernández-Morera tells the full story of Islamic Spain. *The Myth of the Andalusian Paradise* shines light on hidden history by drawing on an abundance of primary sources that scholars have ignored, as well as archaeological evidence only recently unearthed. This supposed beacon of peaceful coexistence began, of course, with the Islamic Caliphate's conquest of Spain. Far from a land of religious tolerance, Islamic Spain was marked by religious and therefore cultural repression in all areas of life and the marginalization of Christians and other groups—all this in the service of social control by autocratic rulers and a class of religious authorities. *The Myth of the Andalusian Paradise* provides a desperately needed reassessment of medieval Spain. As professors, politicians, and pundits continue to celebrate Islamic Spain for its multiculturalism and diversity, Fernández-Morera sets the historical record straight—showing that a politically useful myth is a myth nonetheless.

**islamic history of spain:** *The Legacy of Muslim Spain* Salma Khadra Jayyusi, Manuela Marín, 1992 The civilisation of medieval Muslim Spain is perhaps the most brilliant and prosperous of its

age and has been essential to the direction which civilisation in medieval Europe took. This volume is the first ever in any language to deal in a really comprehensive manner with all major aspects of Islamic civilisation in medieval Spain.

**islamic history of spain: A History of Islamic Spain** Professor W Montgomery Watt, Pierre Cachia, 2007 The period of Muslim occupation in Spain represents the only significant contact Islam and Europe was ever to have on European soil. In this important as well as fascinating study, Watt traces Islam's influence upon Spain and European civilization—from the collapse of the Visigoths in the eighth century to the fall of Granada in the fifteenth, and considers Spain's importance as a part of the Islamic empire. Particular attention is given to the golden period of economic and political stability achieved under the Umayyads. Without losing themselves in detail and without sacrificing complexity, the authors discuss the political, social, and economic continuity in Islamic Spain, or al-Andalus, in light of its cultural and intellectual effects upon the rest of Europe. Medieval Christianity, Watt points out, found models of scholarship in the Islamic philosophers and adapted the idea of holy war to its own purposes while the final reunification of Spain under the aegis of the Reconquista played a significant role in bringing Europe out of the Middle Ages. A survey essential to anyone seeking a more complete knowledge of European or Islamic history, the volume also includes sections on literature and philology by Pierre Cachia. This series of Islamic surveys is designed to give the educated reader something more than can be found in the usual popular books. Each work undertakes to survey a special part of the field, and to show the present stage of scholarship here. Where there is a clear picture this will be given; but where there are gaps, obscurities and differences of opinion, these will also be indicated. Full and annotated bibliographies will afford guidance to those who want to pursue their studies further. There will also be some account of the nature and extent of the source material. The series is addressed in the first place to the educated reader, with little or no previous knowledge of the subject; its character is such that it should be of value also to university students and others whose interest is of a more professional kind.

**islamic history of spain: Andalus and Sefarad** Sarah Stroumsa, 2019-10-15 An integrative approach to Jewish and Muslim philosophy in al-Andalus Al-Andalus, the Iberian territory ruled by Islam from the eighth to the fifteenth centuries, was home to a flourishing philosophical culture among Muslims and the Jews who lived in their midst. Andalusians spoke proudly of the region's excellence, and indeed it engendered celebrated thinkers such as Maimonides and Averroes. Sarah Stroumsa offers an integrative new approach to Jewish and Muslim philosophy in al-Andalus, where the cultural commonality of the Islamicate world allowed scholars from diverse religious backgrounds to engage in the same philosophical pursuits. Stroumsa traces the development of philosophy in Muslim Iberia from its introduction to the region to the diverse forms it took over time, from Aristotelianism and Neoplatonism to rational theology and mystical philosophy. She sheds light on the way the politics of the day, including the struggles with the Christians to the north of the peninsula and the Fāṭimids in North Africa, influenced philosophy in al-Andalus yet affected its development among the two religious communities in different ways. While acknowledging the dissimilar social status of Muslims and members of the religious minorities, Andalus and Sefarad highlights the common ground that united philosophers, providing new perspective on the development of philosophy in Islamic Spain.

**islamic history of spain: Muslims in Spain, 1500 to 1614** L. P. Harvey, 2005-05-16 On December 18, 1499, the Muslims in Granada revolted against the Christian city government's attempts to suppress their rights to live and worship as followers of Islam. Although the Granada riot was a local phenomenon that was soon contained, subsequent widespread rebellion provided the Christian government with an excuse—or justification, as its leaders saw things—to embark on the systematic elimination of the Islamic presence from Spain, as well as from the Iberian Peninsula as a whole, over the next hundred years. Picking up at the end of his earlier classic study, *Islamic Spain, 1250 to 1500*—which described the courageous efforts of the followers of Islam to preserve their secular, as well as sacred, culture in late medieval Spain—L. P. Harvey chronicles here the struggles

of the Moriscos. These forced converts to Christianity lived clandestinely in the sixteenth century as Muslims, communicating in *aljamiado*— Spanish written in Arabic characters. More broadly, *Muslims in Spain, 1500 to 1614*, tells the story of an early modern nation struggling to deal with diversity and multiculturalism while torn by the fanaticism of the Counter-Reformation on one side and the threat of Ottoman expansion on the other. Harvey recounts how a century of tolerance degenerated into a vicious cycle of repression and rebellion until the final expulsion in 1614 of all Muslims from the Iberian Peninsula. Retold in all its complexity and poignancy, this tale of religious intolerance, political maneuvering, and ethnic cleansing resonates with many modern concerns. Eagerly awaited by Islamist and Hispanist scholars since Harvey's first volume appeared in 1990, *Muslims in Spain, 1500 to 1614*, will be compulsory reading for student and specialist alike. "The year's most rewarding historical work is L. P. Harvey's *Muslims in Spain 1500 to 1614*, a sobering account of the various ways in which a venerable Islamic culture fell victim to Christian bigotry. Harvey never urges the topicality of his subject on us, but this aspect inevitably sharpens an already compelling book."—Jonathan Keats, *Times Literary Supplement*

**islamic history of spain: *Al-Andalus*** Metropolitan Museum of Art (New York, N.Y.), Patronato de la Alhambra (Granada, Spain), 1992 From 711 when they arrived on the Iberian Peninsula until 1492 when scholars contribute a wide-ranging series of essays and catalogue entries which are fully companion to the 373 illustrations (324 in color) of the spectacular art and architecture of the nearly vanished culture. 91/2x121/2 they were expelled by Ferdinand and Isabella, the Muslims were a powerful force in al-Andalus, as they called the Iberian lands they controlled. This awe-inspiring volume, which accompanies a major exhibition presented at the Alhambra in Granada and The Metropolitan Museum of Art in New York, is devoted to the little-known artistic legacy of Islamic Spain, revealing the value of these arts as part of an autonomous culture and also as a presence with deep significance for both Europe and the Islamic world. **islamic history of spain: *Muslim Spain and Portugal*** Hugh Kennedy, 2014-06-11 This is the first study in English of the political history of Muslim Spain and Portugal, based on Arab sources. It provides comprehensive coverage of events across the whole of the region from 711 to the fall of Granada in 1492. Up till now the history of this region has been badly neglected in comparison with studies of other states in medieval Europe. When considered at all, it has been largely written from Christian sources and seen in terms of the Christian Reconquest. Hugh Kennedy raises the profile of this important area, bringing the subject alive with vivid translations from Arab sources. This will be fascinating reading for historians of medieval Europe and for historians of the middle east drawing out the similarities and contrasts with other areas of the Muslim world.

**islamic history of spain: The Jews of Islam** Bernard Lewis, 2014-09-28 This landmark book probes Muslims' attitudes toward Jews and Judaism as a special case of their view of other religious minorities in predominantly Muslim societies. With authority, sympathy and wit, Bernard Lewis demolishes two competing stereotypes: the Islamophobic picture of the fanatical Muslim warrior, sword in one hand and Qur'ān in the other, and the overly romanticized depiction of Muslim societies as interfaith utopias. Featuring a new introduction by Mark R. Cohen, this Princeton Classics edition sets the Judaeo-Islamic tradition against a vivid background of Jewish and Islamic history. For those wishing a concise overview of the long period of Jewish-Muslim relations, *The Jews of Islam* remains an essential starting point.

**islamic history of spain: Muslim Spain Reconsidered** Richard Hitchcock, 2014-02-18  
"This introduction to Muslim Spain covers the period from 711 to 1502, giving readers a substantial overview of what it was that made it a unique and successful society, and of its powerful legacy in the formation of modern Spain. Using a chronological framework and pushing the main historical developments to the forefront, the author keeps in view the shifting social patterns caused by the changing balance between town and country, major and minor dynasties, foreign groupings and repeated invasions from North Africa. He also includes discussion of topics such as inter-faith relations, multi-ethnic competing groups, and how intellectual life was enriched by pluralism and influence from abroad."

**islamic history of spain: Early Islamic Spain** David James, 2009-02-25 This book is the first published English-language translation of the significant *History of Islamic Spain* by Ibn al-Qutiya (d. Cordova 367 / 977). Including extensive notes and comments, a genealogical table and relevant maps, the text is preceded by a study of the author and his work, and is the only serious examination of the unique manuscript since Pascual de Gayangos' edition in 1868. Ibn al-Qutiya's work is one of the significant and earliest histories of Muslim Spain and an important source for scholars. Although like most Muslims of al-Andalus in this period, Ibn al-Qutiya was of European origin, he was a loyal servant of the Iberian Umayyads, and taught Arabic, traditions (hadith) and history in the Great Mosque of Cordova. Written at the height of the Umayyad Caliphate of Muslim Spain and Portugal (al-Andalus), the *History* describes the first 250 years of Muslim rule in the peninsula. The text, first fully translated into Spanish in 1926, deals with all aspects of life, and includes accounts of Christians, Jews and Muslim converts. This book will be of great interest to scholars and students of the history of Spain and Portugal, Islamic history, and Mediaeval European history.

**islamic history of spain: The Ornament of the World** Maria Rosa Menocal, 2009-11-29 This classic bestseller — the inspiration for the PBS series — is an illuminating and even inspiring portrait of medieval Spain that explores the golden age when Muslims, Jews, and Christians lived together in an atmosphere of tolerance (Los Angeles Times). This enthralling history, widely hailed as a revelation of a lost golden age, brings to vivid life the rich and thriving culture of medieval Spain, where for more than seven centuries Muslims, Jews, and Christians lived together in an atmosphere of tolerance, and where literature, science, and the arts flourished. It is no exaggeration to say that what we presumptuously call 'Western' culture is owed in large measure to the Andalusian enlightenment...This book partly restores a world we have lost. —Christopher Hitchens, *The Nation*

**islamic history of spain: Islamic Spain** Godfrey Goodwin, 1990

**islamic history of spain: Islamic Arts from Spain** Mariam Rosser-Owen, 2010-06 From the Alhambra to Owen Jones, *Islamic Arts from Spain* tells the story of the art and design produced in Spain under Islamic rule and examines the long-lasting influence of Islamic Spain on European decorative arts. The book looks first at patronage during the 'Golden Age' of the Umayyad caliphate, from the mid-tenth to the early eleventh century, before discussing the Nasrid dynasty who ruled from Granada in a territory much reduced by the resurgent Christian monarchs of northern Spain. It also explores the phenomenon of the 'Mudejar', Islamic-influenced arts produced for non-Muslim patrons in the Renaissance and the craze for the 'Alhambresque', a style promoted by European

designers such as Owen Jones. Addressing the creation, suppression, rediscovery and influence of Islamic art in Spain from the eighth to the twentieth century, the book is lavishly illustrated with objects drawn from the V&A's collections, from exquisite ivory caskets, marble tombstones and capitals to architectural models, jewellery, textiles and ceramics.

**islamic history of spain: The Dhimmi** Bat Ye'or, 1985 Examines the treatment of non-Arab people under the rule of the Muslims and collects historical documents related to this subject

**islamic history of spain: *The Story of the Moors in Spain*** Stanley Lane-Poole, 1886

**islamic history of spain: Iberian Moorings** Ross Brann, 2021-05-28 To Christians the Iberian Peninsula was Hispania, to Muslims al-Andalus, and to Jews Sefarad. As much as these were all names given to the same real place, the names also constituted ideas, and like all ideas, they have histories of their own. To some, al-Andalus and Sefarad were the subjects of conventional expressions of attachment to and pride in homeland of the universal sort displayed in other Islamic lands and Jewish communities; but other Muslim and Jewish political, literary, and religious actors variously developed the notion that al-Andalus or Sefarad, its inhabitants, and their culture were exceptional and destined to play a central role in the history of their peoples. In *Iberian Moorings* Ross Brann traces how al-Andalus and Sefarad were invested with special political, cultural, and historical significance across the Middle Ages. This is the first work to analyze the tropes of Andalusí and Sefardi exceptionalism in comparative perspective. Brann focuses on the social power of these tropes in Andalusí Islamic and Sefardi Jewish cultures from the tenth through the twelfth century and reflects on their enduring influence and its expressions in scholarship, literature, and film down to the present day.

**islamic history of spain: Islam and the Arabs in Spanish Scholarship (sixteenth Century to the Present).** James T. Monroe, 1970

**islamic history of spain: Caliphs and Kings** Roger Collins, 2014-01-28 CALIPHS AND KINGS: SPAIN, 796-1031 The last twenty-five years have seen a renaissance of research and writing on Spanish history. *Caliphs and Kings* offers a formidable synthesis of existing knowledge as well as an investigation into new historical thinking, perspectives, and methods. The nearly three-hundred-year rule of the Umayyad dynasty in Spain (756-1031) has been hailed by many as an era of unprecedented harmony and mutual tolerance between the three great religious faiths in the Iberian Peninsula – Christianity, Judaism, and Islam – the like of which has never been seen since. And yet, as this book demonstrates, historical reality defies the myth. Though the middle of the tenth century saw a flowering of artistic culture and sophistication in the Umayyad court and in the city of Córdoba, this period was all too shortlived and localized. Eventually, twenty years of civil war caused the implosion of the Umayyad regime. It is through the forces that divided – not united – the disparate elements in Spanish society that we may best glean its nature and its lessons. *Caliphs and Kings* is devoted to better understanding those circumstances, as historian Roger Collins takes a fresh look at certainties, both old and new, to strip ninth- and tenth-century Spain of its mythic narrative, revealing the more complex truth beneath.

**islamic history of spain: Blood and Faith** Matthew Carr, 2017-02-17 In 1609, the entire Muslim population of Spain was given three days to leave Spanish territory or else be killed. In a brutal and traumatic exodus, entire families were forced to abandon the homes and villages where they had lived for generations. In just five years, Muslim Spain had effectively ceased to exist: an estimated 300,000 Muslims had been removed from Spanish territory making it what was then the largest act of ethnic cleansing in European history. *Blood and Faith* is a riveting chronicle of this virtually unknown episode, set against the vivid historical backdrop of Muslim Spain. It offers a remarkable window onto a little-known period in modern Europe – a rich and complex tale of competing faiths and beliefs, of cultural oppression and resistance against overwhelming odds.

**islamic history of spain: Jews of Spain** Jane S. Gerber, 1994-01-31 The history of the Jews of Spain is a remarkable story that begins in the remote past and continues today. For more than a thousand years, Sepharad (the Hebrew word for Spain) was home to a large Jewish community noted for its richness and virtuosity. Summarily expelled in 1492 and forced into exile, their tragedy

of expulsion marked the end of one critical phase of their history and the beginning of another. Indeed, in defiance of all logic and expectation, the expulsion of the Jews from Spain became an occasion for renewed creativity. Nor have five hundred years of wandering extinguished the identity of the Sephardic Jews, or diminished the proud memory of the dazzling civilization, which they created on Spanish soil. This book is intended to serve as an introduction and scholarly guide to that history.

**islamic history of spain: Muslim Spain** Anwar G. Chejne, 1974 Muslim Spain was first published in 1974. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. This comprehensive history of Muslim Spain in the centuries from 711 to 1492 provides a panoramic view of the whole field of Hispano-Arabic culture, including science, philosophy, and the arts. As the account makes clear, Muslim Spain was always an integral part of the main literary and intellectual stream of the East and as such was as Islamic as Syria or Egypt. Thus the history is important for an understanding of Islamic culture as a whole and of the interaction of people and ideas. The author shows that the interdependence and continuity of Muslim culture through its long history was nurtured by the unhampered travel of students and scholars and the circulation of publications throughout the width and breadth of the Islamic Empire, notwithstanding the political division that separated Muslim Spain from the center of Islam. The first five chapters of the book describe, dynasty by dynasty, the Muslims' conquest and rule. The remaining chapters discuss in detail all aspects of Hispano-Arabic culture. Among the subjects are the social structure, the sciences and education, Arabic and linguistic studies, prose and belles lettres, poetry, history, geography, and travel, courtly love, religion, philosophy and mysticism, the natural sciences, and architecture, the minor arts, and music. The book is illustrated with photographs, drawings, and maps, and there is an extensive bibliography.

**islamic history of spain: The Moor's Last Stand** Elizabeth Drayson, 2017-04-20 In 1482, Abu Abdallah Muhammad XI became the twenty-third Muslim King of Granada. He would be the last. This is the first history of the ruler, known as Boabdil, whose disastrous reign and bitter defeat brought seven centuries of Moorish Spain to an end. It is an action-packed story of intrigue, treachery, cruelty, cunning, courtliness, bravery and tragedy. Basing her vivid account on original documents and sources, Elizabeth Drayson traces the origins and development of Islamic Spain. She describes the thirteenth-century founding of the Nasrid dynasty, the cultured and stable society it created, and the feuding which threatened it and had all but destroyed it by 1482, when Boabdil seized the throne. The new Sultan faced betrayals by his family, factions in the Alhambra palace, and ever more powerful onslaughts from the forces of Ferdinand and Isabella, monarchs of the newly united kingdoms of Castile and Aragon. By stratagem, diplomacy, courage and strength of will Boabdil prolonged his reign for ten years, but he never had much chance of survival. In 1492 Ferdinand and Isabella, magnificently attired in Moorish costume, entered Granada and took possession of the city. Boabdil went into exile. The Christian reconquest of Spain, that has reverberated so powerfully down the centuries, was complete.

**islamic history of spain: Parables of Coercion** Seth Kimmel, 2015-10-12 In the sixteenth and seventeenth centuries, competing scholarly communities sought to define a Spain that was, at least officially, entirely Christian, even if many suspected that newer converts from Islam and Judaism were Christian in name only. Unlike previous books on conversion in early modern Spain, however, Parables of Coercion focuses not on the experience of the converts themselves, but rather on how questions surrounding conversion drove religious reform and scholarly innovation. In its careful examination of how Spanish authors transformed the history of scholarship through debate about forced religious conversion, Parables of Coercion makes us rethink what we mean by tolerance and intolerance, and shows that debates about forced conversion and assimilation were also disputes over the methods and practices that demarcated one scholarly discipline from another.

**islamic history of spain: Islamic Literature in Spanish and Aljamiado** Gerard Wiegers, 2023-12-21 This important work is an historical study of the Islamic writings in Spanish and

Aljamiado (Spanish in Arabic script) of the Muslim minorities in medieval Christian Spain, the Mudejars and Moriscos. On the basis of both Christian sources, such as archival documents and the writings of John of Segovia, and Islamic sources in Spanish and Arabic, this book focuses on the life and writings of Yça Gidelli (ca 1450), religious authority of the Mudejar community of Segovia (Castile). Of crucial importance for the history of Islamic Spanish literature, Yça's best-known work is a Spanish translation of the Qur'ân made at the request of bishop John of Segovia (d. 1458). This study follows the early history of Islamic writings in the vernacular (13th-14th centuries), continues with a description of Yça's writings and biography, and finally deals with his influence on Moriscos in the 16th and 17th centuries.

**islamic history of spain: Umayyad Legacies** Antoine Borrut, Paul M. Cobb, 2010-06-14 The Umayyads, the first dynasty of Islam, ruled over a vast empire from their central province of Syria, providing a line of caliphs from 661 to 750. Another branch later ruled in al-Andalus – Islamic Spain – from 756 to 1031, ruling first as emirs and then as caliphs themselves. This book is the first to bring together studies of this far-flung family and treat it not as two unrelated caliphates but as a single enterprise. Yet for all that historians have made note of Umayyad accomplishments in the Near East and al-Andalus, Umayyad legacies – what later generations made of these caliphs and their achievements – are poorly understood. Building on new interest in the study of memory and Islamic historiography and including interdisciplinary perspectives from Arabic literature, art, and archaeology, this book highlights Umayyad achievements and the shaping of our knowledge of the Umayyad past.

**islamic history of spain: The Arab Conquest of Spain** Roger Collins, 1995-02-17 This book, now available in paperback, is a challenging and controversial account of the history of Spain in the eighth century. In it Roger Collins assesses the political and cultural impact on Spain of the first hundred years of Arab rule, focusing upon aspects of continuity and discontinuity with Visigoth Spain.

**islamic history of spain: Defining Boundaries in al-Andalus** Janina M. Safran, 2013-04-09 Al-Andalus, the Arabic name for the medieval Islamic state in Iberia, endured for over 750 years following the Arab and Berber conquest of Hispania in 711. While the popular perception of al-Andalus is that of a land of religious tolerance and cultural cooperation, the fact is that we know relatively little about how Muslims governed Christians and Jews in al-Andalus and about social relations among Muslims, Christians, and Jews. In *Defining Boundaries in al-Andalus*, Janina M. Safran takes a close look at the structure and practice of Muslim political and legal-religious authority and offers a rare look at intercommunal life in Iberia during the first three centuries of Islamic rule. Safran makes creative use of a body of evidence that until now has gone largely untapped by historians—the writings and opinions of Andalusí and Maghribí jurists during the Umayyad dynasty. These sources enable her to bring to life a society undergoing dramatic transformation. Obvious differences between conquerors and conquered and Muslims and non-Muslims became blurred over time by transculturation, intermarriage, and conversion. Safran examines ample evidence of intimate contact between individuals of different religious communities and of legal-judicial accommodation to develop an argument about how legal-religious authorities interpreted the social contract between the Muslim regime and the Christian and Jewish populations. Providing a variety of examples of boundary-testing and negotiation and bringing judges, jurists, and their legal opinions and texts into the narrative of Andalusí history, Safran deepens our understanding of the politics of Umayyad rule, makes Islamic law tangibly social, and renders intercommunal relations vividly personal.

**islamic history of spain: Convivencia and Medieval Spain** Mark T. Abate, 2018-11-14 This volume is a collection of essays on medieval Spain, written by leading scholars on three continents, that celebrates the career of Thomas F. Glick. Using a wide array of innovative methodological approaches, these essays offer insights on areas of medieval Iberian history that have been of particular interest to Glick: irrigation, the history of science, and cross-cultural interactions between Jews, Christians, and Muslims. By bringing together original research on topics ranging from water

management and timekeeping to poetry and women's history, this volume crosses disciplinary boundaries and reflects the wide-ranging, gap-bridging work of Glick himself, a pivotal figure in the historiography of medieval Spain.

**islamic history of spain: Muslims in Spain, 1492-1814** Eloy Martín Corrales, 2020-12 In *Muslims in Spain, 1492-1814: Living and Negotiating in the Land of the Infidel*, Eloy Martín-Corrales surveys Hispano-Muslim relations from the late fifteenth to the eighteenth centuries, a period of chronic hostilities. Nonetheless there were thousands of Muslims in Spain during this time: ambassadors, exiles, merchants, converts, and travelers. Their negotiating strategies and the necessary support they found on both shores of the Mediterranean prove that relations between Spaniards and Muslims were based on reasons of state and a pragmatism that generated intense ties, both political and economic. These increased enormously after the peace treaties that Spain signed with Muslim countries between 1767 and 1791--

**islamic history of spain: A History of Islamic Spain** William Montgomery Watt, 1965 The period of Muslim occupation in Spain represents the only significant contact Islam and Europe was ever to have on European soil. In this important as well as fascinating study, Watt traces Islam's influence upon Spain and European civilization--from the collapse of the Visigoths in the eighth century to the fall of Granada in the fifteenth, and considers Spain's importance as a part of the Islamic empire. Particular attention is given to the golden period of economic and political stability achieved under the Umayyads. Without losing themselves in detail and without sacrificing complexity, the authors discuss the political, social, and economic continuity in Islamic Spain, or al-Andalus, in light of its cultural and intellectual effects upon the rest of Europe. Medieval Christianity, Watt points out, found models of scholarship in the Islamic philosophers and adapted the idea of holy war to its own purposes while the final reunification of Spain under the aegis of the Reconquista played a significant role in bringing Europe out of the Middle Ages. A survey essential to anyone seeking a more complete knowledge of European or Islamic history, the volume also includes sections on literature and philology by Pierre Cachia.

**islamic history of spain: The Expulsion of the Moriscos from Spain** , 2014-09-18 The expulsion of the Moriscos from Spain (1609-1614) represents an important episode of ethnic, political and religious cleansing which affected about 300,000 persons. The controversial measure was legitimized by an ideology of religious and political unity that served to defend the expulsion of them all, crypto-Muslims and sincere converts to Christianity alike. The first part focuses on the decision to expel the Moriscos, its historical context and the role of such institutions as the Vatican and the religious orders, and nations such as France, Italy, the Dutch Republic, Morocco and the Ottoman Empire. The second part studies the aftermath of the expulsion, the forced migrations, settlement

and Diaspora of the Moriscos, comparing their vicissitudes with that of the Jewish conversos.
