**the neothink society refund: The Neo-Tech World** Mark Hamilton, 1998-03-01 Written by the son of the founder of Neo-Tech, Wallace Ward Jr, this book defines Neo-Tech as, super rapidly advancing new (NEO) technologies (TECH). His premise is man is evolving from his present state of bicameral mentality, in which he searches for and depends upon a leader, to a new god-man state, in which he no longer needs an external authority figure to direct his actions. Part One presents these ideas in a series of twelve visions. Part Two describes the future awaiting mankind in a series of three insights.

**the neothink society refund: Instinct Based Medicine** Leonard Coldwell, 2008-06 An experienced physician and health researcher explains the direct correlation between emotional and mental stress and degenerative diseases--particularly cancer. He also provides the knowledge and tools necessary to prevent or to recover quickly from a degenerative disease.

**the neothink society refund: Debt Cures ""They"" Don't Want You to Know About** Perseus, 2008-05-06 Millions of Americans are being buried alive with outrageous fees, interest rates and penalties. Meanwhile, the credit card companies are making billions of dollars in profits. The CEO of one of the largest credit card companies in America has stated that their only problem is to squeeze out enough revenue and get customers to sit still for the squeeze. By learning the traps of the consumer lending industry, listeners will know how to avoid them. Trudeau teaches listeners how to fight back, and cure their debt forever.

**the neothink society refund: Annals of Gullibility** Stephen Greenspan, 2008-12-30 The first book to provide a comprehensive look at the problem of gullibility, this groundbreaking work covers how and why we are fooled in areas that range from religion, politics, science, and medicine, to personal finance and relationships. First laying the groundwork by showing gullibility at play in the writings of historic authors we all know, developmental psychologist Stephen Greenspan follows with chapters that describe social duping across the gamut of human conduct. From people who pour bucks into investment scams, to those who follow the faith of scientologists, believe in fortunetellers, or champion unfounded medicine akin to snake oil, we all know someone who has been duped. A lot of us have been duped ourselves, out of naive trust. It's not a matter of low intelligence that moves us to, without evidence, believe the words of politicians, salesmen, academics, lawyers, military figures, or cult leaders, among others. Greenspan shows us the four broad reasons we become drawn into gullible behavior, and he presents ways people can become less gullible. Greenspan takes us into the vast realm of gullibility from the fictional Pied Piper to the historical Trojan Horse, then through modern-day military maneuvers, political untruths, police and criminal justice scams, and financial and love lies. While there have been earlier books focused on liars and manipulators of all sorts, this is the first to focus on the gullible who are their victims, and how the gullible can become less likely to be taken again.

**the neothink society refund: The Science of Getting Rich** Wallace Wattles, Tom Butler-Bowdon, 2010-05-06 The original guide to creating wealth! With this seminal book, Wallace Wattles popularized the Law of Attraction, the powerful concept that inspired *The Secret*. *The Science of Getting Rich* explains how to attract wealth, overcome emotional barriers, and apply foolproof methods to bring financial success into your life. This special 100-year edition contains the complete, original text, along with never-before published biographical information on Wattles, and a foreword by Catherine Ponder, the doyenne of modern prosperity writers. It also features an introduction from personal development authority Tom Butler-Bowdon, plus another Wattles classic, *The Science of Being Great*.

**the neothink society refund: Adventures Within** Joe Vitale, 2003-08 Echoes in Time (90,000 words, 41 chapters, and epilogue) blends the themes of alien contact with the discovery of an asteroid in an orbit that will lead to a collision with earth. The alien culture, as the story develops, is not from some far-off star system, but the star-traveling descendants of an earth-born race of dinosaurs that evolved shortly before their own budding civilization was destroyed by an asteroid impact 65 million years ago. The ship bearing a member of the Kirraka, as these not-so-alien beings call themselves, lands in a remote area of Texas. When military units and aircraft move aggressively into the area surrounding the ship, they are attacked with powerful weapons from the alien ship (based on the assumption that star travelers wouldn't survive long without providing for their own protection against the spears and arrows of local savages) and the ship leaves with a powerful display of physical capabilities and disdain for the efforts to prevent their departure. A bizarre message is left at the landing spot that specifically names a person that the aliens wish to use as their sole contact, an obscure woman paleontologist and late Cretaceous period scholar, Edith Izzard. Contact with an advanced alien culture is viewed by Washington to have enormous economic and social consequences and importance. The resources of the federal government are turned to locating Edith and converting her to the governments side in dealings with the aliens. Edith is not easily convinced, or converted, to any side, especially as it becomes clear that if she does not cooperate she would forfeit her individual freedom and be coerced to do the government's will. When an asteroid is discovered heading for the earth, the importance of the technology available to an advanced culture seems crucial, and Edith's cooperation ever more essential in utilizing the power of the alien science to avoid global disaster. Edith retains her freedom, establishes contact with the alien, K. Word of the impending asteroid collision leaks to the population of the world, and chaos builds. The entire civilization can't be saved, but a compromise is worked out in partnership with the former residents of the planet.
